Very Small Quantity Generators Registration/Certification Form

I certify that I am a hazardous waste generator within the State of Iowa and because of the small volume of hazardous waste generated and/or stored. I qualify for Very Small Quantity Generator (VSQG) status. I understand that to qualify for VSQG status, I must meet the following conditions (as defined by 40CFR section 262):

1. Generate less than 220 pounds/month (100g) of all other hazardous waste, and never store more than 2,200 pounds (1,000g) on site at any time; and
2. Generate less than 2.2 pounds/month (1g) of acute hazardous waste, and never store more than this amount on site at any time. (Acutely hazardous waste can be found listed on the EPA P-list).

I further understand that if, in the future, I exceed the quantity limitations described above, and I will no longer be eligible to participate in this type of collection program.

I, undersigned, have read the above statements and understand the conditions and provisions that apply to the use of the VSQG Program. I certify that I have the right to make these statements on behalf of my farm or business.
